

Sehyoung Hamjong

UX / Product / Industrial Designer

Houston, TX | 832-282-5151 | shamjong@gmail.com | www.sehyoung.com

SUMMARY

Human-centered product and experience designer with 10+ years across enterprise, oil & gas, and large-scale digital environments (last 9 in UX/product). Owns end-to-end design from research through delivery, turns ambiguity into prioritized direction, and blends UX, UI, and industrial design to ship accessible, high-quality work. Leads clients and coaches designers in Agile environments.

EXPERIENCE

Experience Lead, Merkle | Dec 2021 – Jul 2026

Served as both Experience Lead and Lead UX Designer — shaping strategy and leading clients on some engagements, owning hands-on UX craft on others. Across complex, multi-workstream projects, owned journey maps, service blueprints, and end-to-end concepting from research through delivery. For GM Energy, helped shape the digital experience for a new home-energy product line with no prior digital presence — storyboards, journey maps, and service blueprints across shopping, checkout, the Energy Genie, installation, and an executive dashboard, plus a sales guide adopted across their entire sales organization. Independently designed and facilitated a T. Rowe Price visioning workshop for 20+ product owners and managers, turning ambiguity into a prioritized, actionable backlog. Presented design decisions to director- and manager-level stakeholders and coached 1–2 designers per engagement to raise team quality.

Product Designer, Shell | Apr 2019 – Dec 2021

As the UX designer on Shell's Pricing Excellence Tool — now used across Shell's global chemicals business worldwide — partnered closely with a product manager and 12 senior developers in an agile team, embedded with the chemicals-business product owner and SME. Co-led the project kickoff workshop in Rotterdam with a UX lead, UX researcher, and PM — each running a segment and facilitating a breakout group among 15+ international participants — then owned end-to-end design: research, journey mapping, wireframes, prototypes, and UI specifications. The tool's first release nearly tripled weekly active users (28 to 80), with parallel gains in shared analyses and time in tool.

UX Designer, Softway | Aug 2017 – Jan 2019

Led UX and strategy for e-commerce, web, mobile, and internal sites for oil & gas clients. Drove a user-centered approach through personas, journey mapping, iterative ideation, and usability testing; specialized in conceptual wireframing, sprint planning, and prototyping.

Industrial Designer, Advent | Feb 2015 – Aug 2017

Designed custom booths, POS displays, and showcases from concept to fabrication as designer, director, and engineer. Cut a four-week build process to two by improving communication and standardizing components.

Industrial Designer, Tramontina USA | Jul 2013 – Feb 2015

Product Development team member bringing competitive housewares to market — 3D surface modeling, sketching, ideation, and high-resolution prototypes for buyers at Walmart, Costco, Target, and Williams Sonoma.

Freelance Designer, Synchrotech | Mar 2013 – Jul 2013

Consulted on materials and methods for set modeling; prototyped scale and cut-away models and produced AutoCAD drawings with architects.

Design Intern, Protostar Engineering | Summer 2011

Contributed to the USA Olympic skeleton sled, adjusting components in SolidWorks to engineered drawings and streamlining forms for manufacturing.

SKILLS

Design: UX strategy & design thinking, user research & usability testing, journey mapping, service blueprinting, storyboarding, information architecture, wireframing, prototyping, persona & empathy modeling, workshop design & facilitation, accessibility (WCAG) & inclusive design, Agile/SAFe & PI planning, AI-assisted design workflows, mentorship & design maturity

Industrial Design: 2D sketching, 3D modeling, human factors, photorealistic rendering

Software: Figma, FigJam, Figma Make, Miro, Adobe Creative Suite, Claude (AI-assisted workflows), SolidWorks, KeyShot, Sketchbook Pro

Manufacturing: Materials & methods, assembly & mechanical drawings, prototyping, molding & casting, manufacturing processes

EDUCATION

B.S. Industrial Design, Minor in Architecture

University of Houston — Gerald D. Hines College of Architecture & Design, 2012
